

WE ARE HIRING

Product Manager | Product Owner wanted!

UK or German contract: Remote workplace

ABOUT OPENRAD

OpenRad is a young company reinventing teleradiology. We are integrating the best cloud-based imaging solution into Europe's No. 1 connectivity product suite to deliver a unique remote reporting system. By combining the individual products and services of Biotronics3D and Visbion, OpenRad can fully digitalize the workflow processes within radiological diagnostic centres. Our zero-footprint, thin-client SaaS-based solutions speed up implementation, increase centre utilization, provide seamless access to all imaging, and at the same time reduce cost of ownership. We are a London- and Berlin-based company targeting customers globally.

OpenRad Services UK Ltd.
The Old Rectory
Church Street, Weybridge
Surrey, KT13 8DE

JOB SUMMARY

In this new role you will be managing a new subscription-based SaaS product which builds on existing technologies of OpenRad. The Product Manager | Product Owner is responsible for defining and supporting the building of desirable, feasible, viable, and sustainable products based on the business plan of OpenRad. To do this, you collaborate with a wide range of people to identify and define customer needs, understand the context of the solution, and develop the roadmap. You will support the Agile Release Trains (ARTs) in delivering value through the Program Kanban and Continuous Delivery Pipeline.

KEY RESPONSIBILITIES

- Drive the development of product based on the business plan
- Write user stories & re-define them jointly with the development team
- Analyze consumer needs & current market trends
- Assess current competitor offerings, seeking opportunities for differentiation
- Analyze product requirements & develop appropriate programs to ensure they are successfully achieved
- Propose, implement & maintain development timelines for the development team
- Appraise new product ideas & strategize appropriate to-market plans

SKILLS & EXPERIENCE

- Proven experience as a Product Manager or similar role in medical imaging or medical IT
- Very good understanding of radiology workflow
- Experience in product lifecycle management
- Background in software development & program management is preferred.
- Able to process & synthesize information
- Familiarity with Agile frameworks like SCRUM or SAFE
- Excellent communication skills
- Problem-solving attitude
- Creative thinking skills
- Experience with Jira or Azure DevOps are an advantage.
- Degree in Computer Science, Engineering or related field, or the equivalent combination of experience

We hereby would like to invite you to join us in our exciting journey, a journey that will lead not only to success but also to an industry benchmark that other companies one day will follow.

**Please send your CV or questions to:
